Mr. Bodien,

In response to your letter of May 19th, 1983 please find the following information you requested.

The only substance delivered to Western Processing for us would be our spent Pickle Liquor. This consists of appx. Seventy percent Water, Ten percent Sulphuric Acid, Ten percent Iron sulphate, & Ten percent Zinc sulphate.

In 1979 we had appx. 32.4 tons delivered to Western Processing. This consists of appx.:

- 22.68 Tons of Water
- 3.24 Tons of Sulphuric Acid
- 3.24 Tons of Iron Sulphate
- 3.24 Tons of Zinc Sulphate

For 1980 there was appx. 150.48 Tons consisting of Appx. :

- 105.336 Tons of Water
- 15.048 Tons of Sulphuric Acid
- 15.048 Tons of Iron Sulphate
- 15.048 Tons of Zinc Sulphate

In 1981 there was appx. 97.56 Tons consisting of appx.:

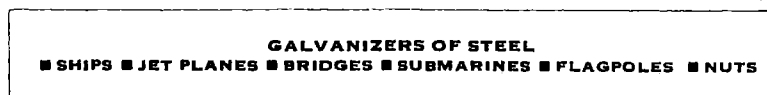

- 77.292 Tons of Water
- 9.756 Tons of Sulphuric Acid
- 9.756 Tons of Iron Sulphate
- 9.756 Tons of Zinc Sulphate

All our material was transported for us via Tanker Truck.

From 1979 thru 1981, our material was transported by Liquid Waste Disposal. Their address is:

P.O. Box 3821
Seattle, Wa. 98124

From 1982 to 1983, our material was transported via N.W. Tank Service. Their address is:

USEPA SF

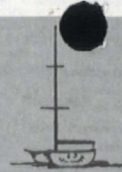

1473559

SCOTT

GALVANIZING COMPANY

1520 N.W. LEARY WAY • SEATTLE, WASHINGTON 98107
783-3100

1500 Airport Way So.
Seattle, Wa. 98134

We have hazardous waste manifests for all our material transported from our facility to Western Processing. Our transporters also have copy's of these manifests at their facilities.

According to Garret Neuenhauser, all of our material was reprocessed in Western Processing's fertilizer process and therefore we should not have any material left at Western Processing.

If you have any other questions, please feel free to contact us at any time.

Thank you.

Gerald Armstrong
